### **Course Description:**

This class is an introductory course in Illustrator and Photoshop, which is used in the industry of graphic design. Students will learn typography, basic branding, t-shirt design and other elements of graphic design. We will go on field trips to see the different graphic design industries. Students need to have a basic knowledge of computer language. Problems solving and thinking outside the box is important as well. Drawing skills will help, but not required.

### **Requirements:**

PC or Mac is required due to the fact we will be using computer programs.
