**Course Description:** This will be a hands-on class full of fun where we will study the amazing creation that is the human body! We'll learn about each system, our growth and development, some health and nutrition and more! Our classroom learning will include: conversational lessons, journal work, some reading and writing, videos, educational models and projects. We cover the bulk of each lesson in class, any homework assigned is meant to be supplementary and fun.

**Instructor Background:** Hello! I am a married homeschooling mom of three (20, 17 and 12). We are in our 10<sup>th</sup> year of homeschooling and recently celebrated the graduation of our oldest in 2021. I am also a registered nurse and continue to maintain my license in order to teach OB nursing clinical for Oklahoma Baptist University. I am a Christian who loves to study and marvel at the handiwork of our creator in the complexity of the human body. "For you created my inmost being; you knit me together in my mother's womb. I praise you because I am fearfully and wonderfully made, I know that full well." Psalm 139:13-14
