****Class Readiness****

Please go to <http://www.mathusee.com> for the Readiness Assessments (Click on the parent link, getting started, and then placement. Please read through each section to find your child's appropriate level. You can then click on the section to have your child take the readiness test)

2 Semester Course

Fees: \$60 monthly tuition fee plus \$10 copy fee per semester

Text: Math U See Alpha Student Pack or Beta Student Pack (depends on your child's level). Each pack is about \$45 on the Math U See website or CBD.com.

Course Description:

Math U See

*Parents are responsible for purchasing a student pack.

Alpha Student Pack will cover concepts such as place value, telling time, and mastering single digit addition. Student will also learn skip counting by 2's, 5's, and 10's. Finally, the student will master relationships between addition and subtraction.

Beta Student Pack will cover concepts such as place value, as well as learning and understanding the difference between numbers and inequalities. The student will also gain the ability to add and subtract any combination of whole numbers.

Gamma Student Pack covers multiplication for single and multiple-digit numbers and other topics.

Science

*Parents are NOT responsible for purchasing the science book. Copies will be provided.

*There is a 20\$ science fee (this may be lower depending on how many children are in the class.

Depending on enrollment, we will choose one of Dr. Jay Wile's books Science in the Beginning, Science in the Ancient World, or Science in the Scientific Revolution. We will use biblical background AND scientific truths to learn more about God and the world around us. Students will need attentive, listening ears.
