

Botany

Instructor: Robbie Wilson

Grade: 4th – 6th

Fees: \$30 monthly tuition fee plus one-time \$25 lab/material fee

Text: Exploring Creation with Botany; ISBN: 9781932012419

Course Description:

-Students will learn about seeds, pollination, fruits, leaves, roots, stems, taxonomy, and the importance of botany.

-This course will require a notebook or spiral for taking notes. Lab reports will be due the week after the lab experiments are performed. Students are expected to do independent work outside of class to stay up to speed. Study guides and handouts will be provided to detail specific topics for students to focus on to adequately prepare for class exams.
